PaceMate®

Onboard to the Future of Cardiac Remote Monitoring

Future-proof. Future-ready. Today.

Easy to Implement
One & Done.

Benefit from our partnerships and integrations, and onboard to the future today with PaceMateLIVE™. With virtually no data entry at onboarding, all your patients are live from day one. And with our exclusive real-time EHR integration, all of your patients' cardiac data is always current—no stale info ever. Flip the switch and you're on.

> "Implementing PaceMate was really easy. We had tremendous support both at the institution and from PaceMate. **PaceMate made it really easy—almost turnkey.**"
>
> **—Mark Borganelli**
> MD, Chief of Cardiac Electrophysiology, Hattiesburg Clinic and Forrest General Hospital

01
Patient data is ready to go—from day 1

99%
Data autopopulates for reduced manual entry

All cardiac data is stored in one platform

Onboard to the future—Today.

✓ **Flip the switch implementation.**   Easy onboarding means your clinic is automatically up to speed and ready to go with virtually no manual data entry.

✓ **Future-ready, scalable platform.**   Thoughtfully designed for today's cardiac programs, PaceMateLIVE manages all patient data from all cardiac device types.

✓ **Access to premier partnerships.**   PaceMateLIVE integrates with every EHR and device vendor—integrating with more data sources than any other software.
